Wire Products for All Your Warehousing Needs

Wire Mesh Decking & Shelving, Dividers and Containers & More

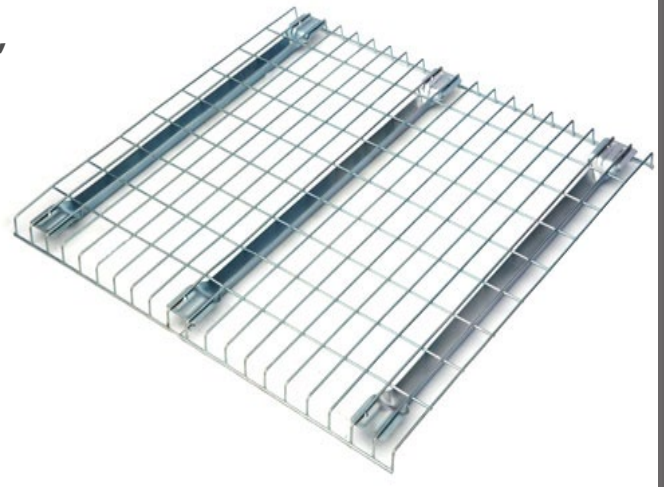

Next Level's standard wire deck for pallet rack is double waterfall with flared support channels to fit any beam style.

And, it's constructed of galvanized steel* for long lasting, rust-free performance.

Advantages of Next Level Wire Deck

- "Quick Ship" program with 12 sizes, including 44"
- "Quick Production" for many custom orders
- Enhances overhead sprinkler systems
- Allows for better product visibility & ventilation
- Brightens the warehouse
- Environmentally friendly
- Economical and stronger than wood
- Easy to install--drops into place without tools or hardware
- Maintenance-free, rust-free and chip proof

Custom Sizes

We can manufacture any size, capacity, wire gauge or mesh pattern to meet your requirements in full or partial truckload quantities.

Stock Sizes

Next Level stock sizes have a 4" x 2.5" mesh pattern, 7 gauge wire, 1-1/2" front and rear waterfall and 2500-3000 lb capacity.

** All wire products can be ordered in a powder-coat finish (any color) at no extra charge.*

Quick Production--build your own deck and get it fast.

Standard deck sizes can be quickly customized with any of the following:

U-Channel Supports:

Extra supports:

Painted Finish:

Inverted Channel:

Reverse Waterfall:

Flush Decks:

Accommodates standard step beams and can be specified at *no extra charge*.

Specify any number of flared or regular supports.

Specify any powder coat color at *no extra charge*.

Upturned rear waterfall prevents products from being pushed off the back.

Support channels are inverted to prevent debris from collecting inside the channel.

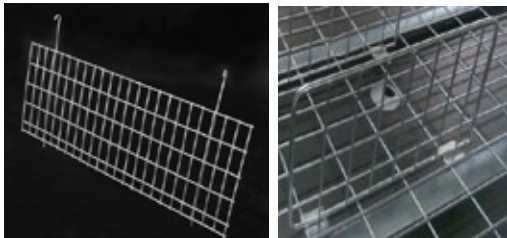

Fit inside the load beams, leaving beam face unobstructed for barcodes and labels.
